**Department of Physics**

**Certificate Course: Programming in 'C'**

**Syllabus: W.e.f.-1<sup>st</sup> August 2018**

**'C'-Programming Language:**

'C'-Programming Language is one of the top most popular programming languages. 'C'-Programming Language is a general purpose and high level programming language. You can use 'C'-Programming Language for developing desktop GUI applications, websites and web applications. Also, 'C'-Programming Language, as a high level programming language, allows you to focus on core functionality of the application by taking care of common programming tasks. The simple syntax rules of the programming language further makes it easier for you to keep the code base readable and application maintainable. There are also a number of reasons why you should prefer 'C'-Programming Language to other programming languages.

**Advantages of 'C'-Programming Language:**

- It is easy to understand. One of the main reasons why people choose 'C'-Programming Language over other programming languages is its simplicity. ...
- Presence of many Libraries. ...
- Easy to write. ...
- Low cost. ...
- Fast execution speed. ...
- Portable. ...
- Easy debugging. ...
- Procedure Oriented Language.

**Objectives:**

- Programming basics and the fundamentals of C
- Data types in C
- Mathematical and logical operations
- Using if statement and loops
- Arranging data in arrays
- Implementing pointers
- File management and dynamic memory allocation

**Course outcomes:** After completion of this course student will be able

- Develop a C program
- Control the sequence of the program and give logical outputs
- Implement strings in your C program
- Store different data types in the same memory
- Manage I/O operations in your C program
- Repeat the sequence of instructions and points for a memory location
- Apply code reusability with functions and pointers
- Understand the basics of file handling mechanisms
- Explain the uses of pre-processors and various memory models
