Department of Commerce Student Mentoring Programme

Action Taken Report: 2022-23

Major problems (Academic / Personal) found by Mentors about Mentee during counseling and required action is taken to solve the problems by the Mentors:

1. Irregularity:

Solution: In case of irregular students mentors communicated to students to remain present in the class. Mentors also communicated to the parents of the students regarding irregularity of students and convinced them regarding attendance of the students.

2. Lack of Attentiveness and Seriousness:

Solution: Newly admittedstudents were not aware about learning process. Concentration of the students was disturbed because of theirs mindsets and age factor. Mentors guided them about how to involve in the process of teaching and learning focusing that this process is two way process. Faculties asked questions to the mentees and tried to make involvement of them in this process.

3. Poor Academic Performance:

Solution: Those students were poor in concern of knowledge, mentors guided them to read more books and newspapers using library of the college and suggested them to be always attentive while learning.

4. Health Issues:

Solution: Most of the girl students come to college without having breakfast due to the distance of the college is far from their homes hence maximum time they spend in travelling and other things. Faculties asked girl students to have breakfast before leaving home.

5. Drop out of students:

Solution: Due to marriage of girl students, health issues of mentees and family members, death of parents etc., it is found that; some students are always irregular in classroom and in counselling sessions. Mentors guided the students and parents about importance of education and frequently mentors trying to be in contact and communicate with them.

6. No knowledge regarding job opportunities and skills required:

Solution: Most of the students were unaware about job opportunities in the field of Commerce and Management and skills required to grab a job opportunity. Many skill enhancement programmes like memory boost, personality development and examination awareness programme were conducted for skill development.

Solution: All classes are conducted through Zoom app but more students are not attentive and irregular in the class. Mentors requested and communicated mentees to attend classesand also parents are requested to tell mentees to attend the lectures.

5. Lack of various skills among mentees:

Solution: As thedata collected from mentees it is found that they are required to additional guidance regarding various skills in the field of Competitive Examinations, Accounting Skills, Marketing Skills, Tally (Accounting Software), Spoken English, Soft Skill Development, Reading and Writing Skills, Computer Literacy, Health Exercise etc.
