ई- संगोष्ठी का इतिवृत्त

स्नातकोतर हिंदी विभाग, हिंदी अनुसंधान केंद्र तथा अन्तर्गत गुणवत्ता आश्वासन प्रकोष्ठ के संयुक्त तत्वावधान में दिनांक 3 अक्टूबर 2020 को प्रातः 10:30 से लेकर 1.00 बजे के दरमियान 'वर्तमान परिप्रेक्ष्य में महात्मा गांधी जी के विचारों की प्रासंगिकता' विषय पर एक दिवसीय राष्ट्रीय वेबीनार का सफल आयोजन किया गया। इस वेबीनार में बीजवक्ता तथा प्रमुख अतिथि के रूप में मा. श्रीमान अश्विनभाई झाला (प्रसिद्ध गांधीवादी विचारक एवं प्रचारक, गांधी फाउंडेशन, जलगांव, महाराष्ट्र) उपस्थित थे। मा. अश्विन भाई झाला ने अपने बीजवक्तव्य में कहा कि "ग्राम स्वराज्य और रामराज्य का सपना देखने वाले महात्मा गांधी जी सामाजिक, धार्मिक, राजनीतिक और आर्थिक समता के प्रबल समर्थक थे। अपने सार्वजनिक जीवन के शुरुआती दौर में उन्होंने विद्यार्थी,किसान, वकील और मजदूरों का भी संगठन खड़ा किया। यही कारण है कि तत्कालीन धार्मिक, सामाजिक और जातिगत भेदभाव के होते हुए भी उन्हें सुनने के लिए लाखों की संख्या में लोग इकट्ठा होते थे। आज कथनी और करनी में अंतर होने के कारण ही महात्मा गांधी जी जैसी लोकप्रियता का अभाव देखा जाता है।"

प्रो. झाला ने आगे कहा कि "गांधी जी का जन्म दिवस २ अक्टूबर अब 'विश्व अहिंसा दिवस' के रूप में मनाया जाता है। क्योंकि तत्कालीन हिंसा के माहौल में उन्होंने अहिंसा और सत्याग्रह का अंगिकार कर अखिल भारतवर्ष में अंग्रेजी शासन के सूर्य को असंगत की दिशा में भेज दिया। वर्तमान जटिल और हिंसक माहौल में गांधी जी के विचारों की प्रासंगिकता और भी बढ़ गई है। कृषक नीति, पंचायत राज की स्थापना, स्वयंपूर्ण ग्राम जैसी योजनाओं को अंजाम देने के लिए आजीवन प्रयासरत गांधी जी अपने हर कार्य को सविनय किया करते थे। यह सच में चौंकाने वाला सत्य है। क्योंकि आजकल एकाध बात अप्रिय लगने पर समाज में कैसी-कैसी हिंसक प्रतिक्रियाएं उठती हैं, इससे हम भली भांति वाकिफ है। उन्हें देखकर क्या लगता है कि हम सच में महात्मा गांधी जी के अनुयायी हैं? आज अहिंसा ही हमारे अस्तित्व को बनाए रखने का एक प्रबल जरिया है। हमारे साधन भी अहिंसक होने चाहिए।"

संगोष्ठी में आमंत्रित विशेष वक्ता डॉ. प्रकाश धुमाल (सदस्य, हिंदी अध्ययन मंडल, मुंबई विश्वविद्यालय मुंबई) ने कहा कि "महात्मा गांधी जी की विचारधारा फैशन की वस्तु नहीं है, बल्कि वह आचरण की वस्तु है। अतः आज के मूल्य-विघटन के दौर में उसे और अधिक गंभीरता से समझने की आवश्यकता है। गांधीजी न केवल भारतवर्ष के बल्कि विश्व के युगपुरुष हैं। 'ईश्वर अल्लाह तेरो नाम, सबको सन्मति दे भगवान' अथवा 'वैष्णव जन तो तेणे कहिए, जे पीर पराई जाणे रे' जैसे उनके प्रिय भजनों को ही गहराई से जान लेने पर उस विचारधारा की थाह तक पहुंचा जा सकता है। उस विचारधारा में अखिल प्राणी मात्र के प्रति प्रेम-भावना का जो विस्तार है और अहिंसा में जो प्रेम-तत्व निहित है, उसे नए सिरे से समझना जरूरी है। गांधी जी के सत्य और अहिंसा के सिद्धांत असल में महात्मा बुद्ध और महात्मा कबीर के ही विचार हैं। वह वैश्विक मानवता की भलाई की बात कहते हैं।" इस तरह अपने विद्वत्तापूर्ण विचारों को व्यक्त करने के साथ-साथ डॉ. धुमाल ने अपने वैयक्तिक अनुभव तथा कुछ संस्मरण सुनाते

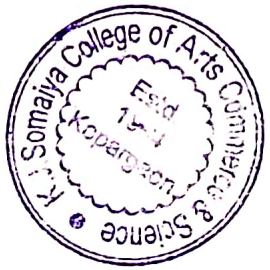

हुए उपस्थित श्रोताओं को मंत्रमुग्ध किया। इस बीच उन्होंने अपने मुंबई स्थित मित्र पंड्या साहब के साथ चरखा चलाने,खादी पहनने तथा चरखे को किए गए स्पर्श को पारस स्पर्श बताया।

संगोष्ठी की दूसरी विशेष वक्ता राजूर,(अहमदनगर) स्थित गांधीवादी प्रचारक एवं समाज सुधारक सुश्री प्रा. बीना सावंत ने कहा, कि "गांधीजी बीसवीं सदी के एक महान व्यक्तित्व हैं। जिन्होंने भारत के साथ-साथ अखिल विश्व की मानवता को अपने विचार एवं कृतित्व से प्रभावित किया है। आज 21वीं सदी में उनके विचार एवं कृतित्व पर फिर से अमल करने की आवश्यकता है। वर्तमान पतनशील तथा बिखराव भरे माहौल से उबरने का एक ही उपाय है- महात्मा गांधी जी के विचारों का अनुकरण और अनुसरण।"

संगोष्ठी के लिए कोपरगांव तालुका एजुकेशन सोसाइटी के अध्यक्ष मा. श्रीमान अशोकराव रोहमारे, सचिव मा. एडवोकेट एस.डी. कुलकर्णी, प्राचार्य डॉ. बी. एस.यादव, अंतर्गत गुणवत्ता आश्वासन प्रकोष्ठ के समन्वयक डॉ. व्ही सी ठाणगे, उपप्राचार्य डॉ. एस. आर. पगारे ने अपनी शुभकामनाएं दी। इस ऑनलाइन संगोष्ठी को सफल बनाने में समन्वयक डॉ.जे.एस.मोरे के अलावा हिंदी विभाग प्रमुख डॉ. एस. बी. दवंगे, डॉ. बी.एस. भुजाडे, आदि अध्यापक एवं तकनीकी सहायक श्री.आकाश बाबर आदि कर्मचारियों ने मूल्यवान सहयोग किया। इस वेबिनार में विभिन्न महाविद्यालयों के हिंदी अध्यापक, शोधार्थी तथा छात्र-छात्राओं की बड़ी संख्या में उपस्थिति थी। लगभग 70 हिंदी प्रेमियों ने इस संगोष्ठी में ऑनलाइन सहभागिता की।

One Day Webinar on
'Impact of COVID-19 on Environmental Resources'

Day & Date: Tuesday, 10th November 2020

Time: 10 am

Introduction:

The topic of discussion for the Webinar is Impact of COVID-19 on Environmental Resources and its aims to aware the students and provide key inputs to the society. Worldwide spread of COVID-19 in a quite short time has brought subsequent lockdown, anthropogenic activities like industrial projects, vehicular movement, construction projects, tourism other common transportation activities witnessed a 'never before' stagnant phase. Restricted human interaction with nature during this crisis time has appeared as a blessing for nature and environment. Reports from all over the world are indicating that after the outbreak of COVID-19, environmental conditions including air quality and water quality in rivers are improving and wildlife is blooming.

It can be summarised that undoubtedly COVID-19 has brought a fearful devastating scourge for human being but it has emerged as a blessing for natural environment providing it a "recovery time". We have also learnt that the environmental degradation caused by humans is not totally irreversible. In a period of just 1–2 months, "recovery of nature" is being witnessed by everyone. This is a signal for us to understand and react. Government and Policy makers should take necessary steps so that this healing process does not become a temporary thing. There is a need for rigorous study on the effect of implementation of such short term lockdown as an alternative measure for pollution reduction and its effect on economy. At present when entire globe is struggling to frame proper strategies to combat Covid-19, the early lockdown implemented has shown an absolute way towards restoring ecosystem and environment.

The resource persons of the Webinar, Prof. Dr. A.M. Deshmukh Sir and Dr. Pramod Kamble Sir who sincerely committed to this event to make it a success thorough their lead lecture on impact of COVID-19 on environmental resources.

Environmental Impact Analysis of Covid19 in Indian context

By
Dr. Pramod N. Kamble,
Department of Environmental Science,
Savitribai Phule Pune University, Pune

Introduction

- Environmental Impact Assessment (EIA) is a process of evaluating the likely environmental impacts of a proposed project or development, taking into account inter-related socio-economic, cultural and human-health impacts, both beneficial and adverse.
- UNEP defines Environmental Impact Assessment (EIA) as a tool used to identify the environmental, social and economic impacts of a project prior to decision-making. It aims to predict environmental impacts at an early stage in project planning and design, find ways and means to reduce adverse impacts, shape projects to suit the local environment and present the predictions and options to decision-makers.
- Environment Impact Assessment in India is statutorily backed by **the Environment Protection Act, 1986** which contains various provisions on EIA methodology and process.

Day & Date: Tuesday, 10th November 2020

Time: 10 am

REPORT

The Webinar on Impact of COVID-19 on Environmental Resources aimed to aware the students and provides key inputs to the society. The webinar was started at 10 am with the introductory speech of Dr. G.S. Shinde (Webinar co-ordinator) regarding the theme and aim behind the organization of the said webinar. Then it was extended further by the introductory speech of Prof. V.S. Thange (IQAC Co-ordinator) and welcome address of our College Principal Dr. B.S. Yadav. The schedule of the webinar included two sessions during which the resource person Prof. Dr. A.M. Deshmukh (Ex- Professor and President, Microbiologist Society, India, Dr. BAMU Sub-centre, Osmanabad) gave plenary talk on 'Impact of Covid on Environment' in the first session of the webinar. During his talk he introduced the participants to novel Corona virus COVID-19, the pandemic situation leads to lockdown of schools, colleges, building construction, industries, production units and social gathering. He traced on the effect of lockdown due COVID-19 virus on air pollution such as air, sound, plastic, electronic, water etc. He concluded that although the pandemic situation is out of control for human beings but the positive side of it has made us to reconsider our lives and reorganize it in a way that has less impact on our planet. The situation is a "reset" for nature and mankind, giving us a prospect to observe and analyse in and around.

In the second Session of the Webinar, the resource person Dr. Pramod N. Kamble (Department of Environmental Science, Savitribai Phule Pune University, Pune) talk on the topic 'Environmental Impact Assessment of COVID-19 in Indian Context'. In his talk, he explained about the pandemic situation caused by COVID-19 virus, biological nature of virus, historical review of epidemic diseases occurred before. He revealed that locking down in homes and social distancing is the only preventive step that the entire country is following. But as the human activities are restricted in most of the areas, the natural environment of country has started healing itself. Factories, transport, vehicles and aviation have all ground to a halt. Carbon emissions have

decreased and the quality of air has seen an unprecedented improvement. The Air quality index (AQI) in all the states of India are now in two figures indicating moderately good quality of air after this lockdown. Not only air but the rivers of India like Ganga, Yamuna, and Cauvery etc. have become clean and clear and marine life is visible.

The schedule of the webinar includes two sessions during which discussions and question answering with the esteemed resource persons was carried out by the participants. A total of 185 participants were registered through Google form and 60 participants had attended both the sessions. The outcome of the webinar was new ideas, fresh energy and novel partnerships to sustain our efforts in support of environment and recovery from COVID-19, through science, technology and innovations. ABOUT THE ICES-2020

Socio-economic and Environmental issues: Challenges and Future Prospects in Current Pandemic Situation

Dear Friends,

Socio-economic and the environmental issues in the shadow of Coronavirus came at a hugely critical time for environmental economists, socialist and policy makers alike. We are in a situation of significant socio-economic change, a change that could potentially lay the foundation for mankind's future in the years to come.

The COVID-19 outbreak is a global financial and public health crisis. Economic growth has shown a steep drop and is predicted to continue the same considerably in the near future to a great extent on a long-term basis, as gains in the tourism, aviation and extractive sectors, among others, are completely wiped out. COVID-19 has raised the alarm and given us the warning signal that scientific cooperation is an important key when dealing with global public health issues. The unavailability of testing kits and other Personal Protective Equipment (PPE), inadequate training of healthcare workers, lack of adequate facilities for the treatment of COVID-19 infected patients, are all factors that have unfortunately contributed to undermining the image and capacity of the scientific community to innovate and to meet the pressing needs at hand.

COVID-19 pandemic has given us the message that whatever are the adversities, we need to continue imparting education to the students/people. Continued education must be ensured when so many children today cannot go to school. Education is one of the biggest casualties in fight against the pandemic all over the world especially in developing countries. The immediate and long term consequences of school closures will inevitably further exacerbate inequalities and disparities in the education sector. Since, the natural world is quite complex and human activities are leading to unexpected catastrophe in the form of corona virus and other environmental issues, the linkages between economic development, viral crossovers in the form of communicable diseases and environmental issues in particular have, up to now, seen little attention from environmental economists.

The main aim of the present conference is a step forward in this direction to bridge the gap and provide a platform for interaction and deliberations among scientists, researchers, academicians and policy makers from different parts of the globe. The discourse will include various issues about the present situation of COVID-19 pandemic along with in-depth discussion/ possible solutions on the future prospects of environmental policies after COVID-19 effecting global climate and its impact on biodiversity, health and socio-economic status of citizens. Subthemes of ICES 2020 are as under:

- **Global pandemic: its preparedness and response.**
- **Covid-19 and its implications on Global Economy and Environment.**
- **Challenges and Opportunities in education sector during pandemic period.**
- **Societal awareness and safety measures for combating Covid-19 effect during unlock period.**

One day Workshop on D Space

Many academic institutions around the world have made the decision to digitize their scholarly output and research into the format of a repository in an effort to "manage their educational research more effectively and transparently than in the past. Such digital collections are known as Institutional Repositories.

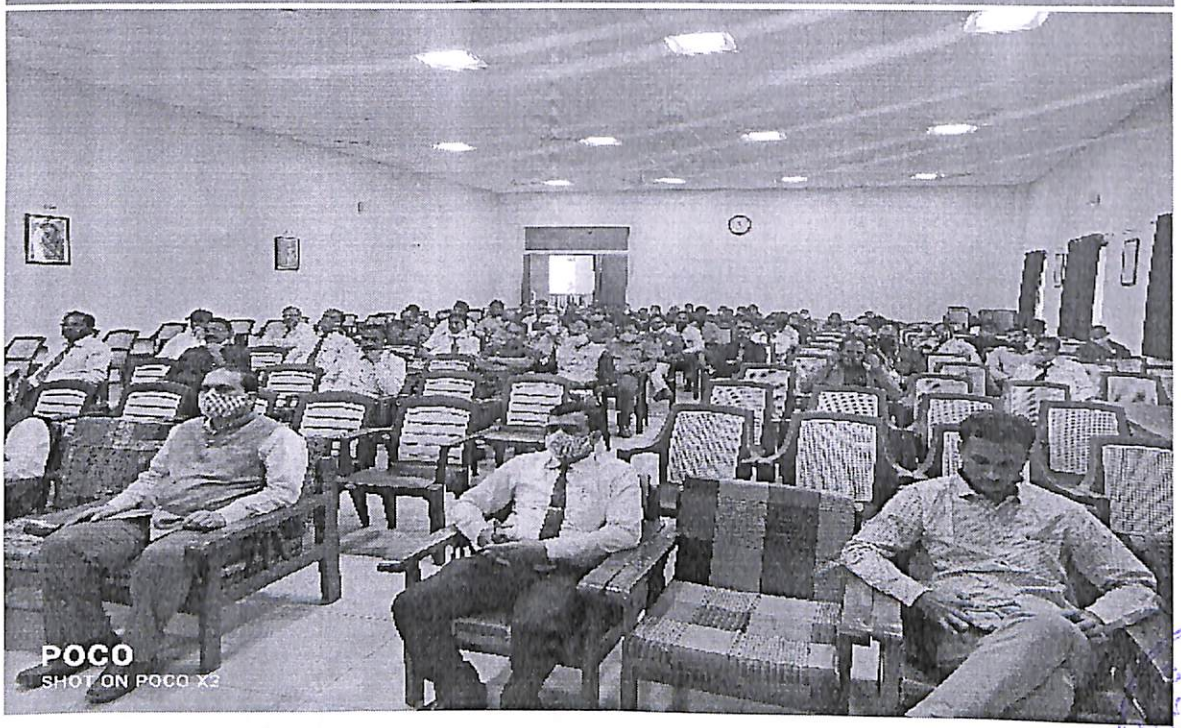

They offer the opportunity for academic libraries to collect, preserve and disseminate the institution's scholarly output. Institutional repositories make it possible to collect content in one location, capture and provide open access to the intellectual output of a university, as well as preserve content that may be otherwise unavailable or out of publication. Published materials such as post-print, journal papers, book chapters, and conference papers make up a significant portion of the content of many IR's. Unpublished or gray materials such as pre-prints, working papers, thesis and dissertations, professor lectures, technical reports, progress/status reports, and committee reports are some examples of other types of content some IR's will contain.

The IRs are created using various software like the Dspace, e-Prints, Greenstone etc. Among these Dspace, an Open Free solution developed by the MIT is used widely all over the world.

Librarians need to know how to install, customize, administer and use these repositories and it is an essential skill expected from the present day information professional. Keeping this view in mind the Department of knowledge Resource Center has organized one day workshop for college faculty members on D Space Software for the development of Institutional Repository **on date 19th January 2021.**

Successfully installed the software and given hands on training from Softech Solutions & Services, (Mr. Cheten Taksale) for the same from each department on coordinator is finalized from Hon'ble Principal Sir, Total 44 faculty members were present for the workshop.

to me, Sumki

Dear Ma'am / Sir,

Greetings from Sanjeevani- Life Beyond Cancer.

I write to you on behalf of Sanjeevani-Life beyond Cancer, a pioneer in 'Comprehensive Cancer Care.' We are an award-winning non-profit organization working for prevention, early detection, counselling and rehabilitation of cancer and cancer patients. Our focus is on navigating them from Dis-ease to wellness.

One of our major areas of work is to spread awareness. Just to share some data, Cancer is the second leading cause of death globally and was responsible for an estimated 9.6 million deaths in 2018. There are approx. 17 lakh new reported cases in India every year. It is estimated that double that number go unreported. The scenario is alarming and worsening day by day.

Sanjeevani LBC does structured awareness camps in Schools, Colleges and Communities:

Ø Cancer – why and how

Ø Need for prevention and early detection and

Ø Healthy lifestyle habits & wellness

The awareness camps deliver this knowledge through a combination of presentations, Q&A session and a Quiz. The camp ends with a Pledge being taken by participants to take on healthy practices and share the knowledge gained through the camp.

All participants are given E Certificates for their records.

Sanjeevani does not levy any charge towards holding these camps.

Resources required from the institution for the programme to be a success -

· Timing 9am onwards

· Students (Minimum 50)

· Zoom Cloud Meeting App.

· Teachers and Parents can also be part of it

We hope you will join hands with Sanjeevani LBC in its endeavor to eradicate cancer.

Since its inception in 2012, Sanjeevani has enriched the lives of over 2, 45,000 patients across its 14 centers pan India.
