He raised the question that was there demand for these acts? And Are all these Acts new? He answered these questions that there was not demand for these acts from the farmers and all these acts are not new. Finally, he raised the problems emerged due to these acts, such as centre-state conflict, autonomy of states. He suggested that there is need of scientific research (not political) on the autonomy of state because it is in danger zone due to the centre and according to the constitutional provisions autonomy of states is necessary to unite the nation.
