Environmental Promotion Activities beyond the Campus

College has always advocated environmental protection through various activities. The college campus is full of greenery with various species of trees. College has not only shown concern about environment on campus but taken this drive outside the campus also.

From the academic year 2018, college has planted trees in various villages in the Tehsil of Kopargaoon. College also work with various NGOs working in environment conservation like, Green Forum, Suryatej Sanstha, Godamai Pratishthan, Vrukshavedh Foundation etc.

College has planted trees and arranged awareness program in the following villages- Anjanapur, Badarpur, Derde Korhale, Chandekasare, Ghari, Dauch Bk. and Dauch Kd. In these villages awareness about environment was created through lectures and street plays.

Awareness drives were specially organised in schools of above mentioned villages along with Samata International School, Kokamthan. Students of the villages shown keen interest in these activities throughout these years.

They took the oath to plant trees in their respective villages. College find it as a major success because the young minds were ignited through these activities. Villagers, School teachers, office bearers of the gram panchayat participated whole heartedly in all these activities.

Village Anjanapur became the model village in environmental conservation. The Vrukshavedh Foundation plant trees every year during 6th to 9th July. College students along with some teachers, participate in this drive every year. The result of this special tree plantation drive is seen through increased rainfall in and around the village of Anjanapur. Other villages have taken inspiration from this drive.

College also work for river Godavari protection and conservation with the NGO Godamai Pratishthan since 2018. Weekly activity is conducted on the bank of river Godavari. Trees are planted at the bank of river Godavari. Beautification of the river bank is also done in the year 2020. Through this act, awareness was created among the citizens of Kopargaon.

On Ganesh festival, the students of the college collect plastic and Nirmalya from the devotees and hand it over to the Municipal council for further eco- friendly disposal. This activity is a regular activity from the year 2009. In this activity, Lions club of Kopargaon participate with equal enthusiasm.

Dr B.S. Gaikwad of the Botany Department delivered many offline and online lectures on environmental awareness. He delivered a lecture on "Environment Awareness" in Sanjivani Arts, Commerce & Science College Kopargaon on 12th Jan 2022.

All these activities show that College fulfils its responsibility towards environment protection and conservation. This work will go on in future also as it is a need of the hour.
